ENERGENIE

Hand Charger for
Mobile Phones with
Flashlight and
FM radio

£13 inc VAT

From www.energenie4u.co.uk

This device includes a built-in charger and a set of miniUSB, Nokia, Sony and Samsung adaptors meaning that, with a few minutes winding, you can bring life to a basic phone – enough to send a text if you're stranded.

You can also turn your muscle-power into light with a torch. The FM radio works well if you leave it tuned to your local radio station for updates in an emergency and the wind-up alarm siren is a bonus.
